

Gunasekaran T

AI Automation Specialist | No-Code Tool Builder | Process Innovator

📍 Dindigul, Tamil Nadu, India | 📞 +91-9787663159 | ✉ gunasekaran9787@gmail.com

SUMMARY

AI-driven professional specializing in no-code automation, prompt engineering, and workflow optimization. Skilled at leveraging platforms like Microsoft Copilot, ChatGPT, Claude, and Google App Script to design tools that eliminate manual bottlenecks, enhance quality control, and improve operational efficiency. Experienced in bridging business operations with AI innovation — delivering practical solutions without traditional coding.

AI & AUTOMATION SKILLS

Prompt Engineering & Context Engineering
Generative AI Applications
Workflow Automation & Quality Control

No-Code AI Tool Development
Web-based OCR Tool Creation (Copilot + Google App Script)
AI Platforms: Copilot, ChatGPT, Claude

KEY AI PROJECTS

Web-based OCR Tool: Extracts text from screenshots, enables keyword search, and tracks usage.

AI-Powered Quality Control Framework: Reduced manual QA time by ~40%.

Automated Reporting Dashboards: Real-time SLA, productivity, and error tracking.

Process Improvement Plans (PIPs): Reduced error rates by ~15% across a 20-member team.

CERTIFICATIONS & CONTINUOUS LEARNING

- M365 Copilot – Completed
- Agentic AI – Completed
- Context Engineering – Completed
- Generative AI – Completed
- Prompt Engineering – Completed
- Microsoft Excel – Advanced & Expert Level (In Progress)
- AI Tools for Business & Automation (ChatGPT, Claude) – In Progress
- Prompt Engineering for Professionals – In Progress

TECHNICAL SKILLS

AI Tools: Copilot, ChatGPT, Claude

No-Code Development: Google App Script, OCR automation

MS Excel: Macros, Pivot Tables, Dashboards

Reporting: Quality, productivity, SLA dashboards
